

# TRADE TOOLS TO GUIDE YOUR BUSINESS

The world trading system is impacted by the imposition of import and reciprocal tariffs. Singapore-based companies can leverage the Tariff Finder to search for the latest information on tariff and non-tariff trade measures across more than 160 destinations to adjust their business strategies.

**Using Tariff Finder, you can gain access to the latest information on:**

### Tariffs & Taxes

Access updated information on tariffs and taxes based on latest trade measures to accurately calculate costs and adjust pricing/business strategies.

### Rules of Origin

Review the Rules of Origin to qualify for preferential treatment under Free Trade Agreements to unlock potential tariff savings.

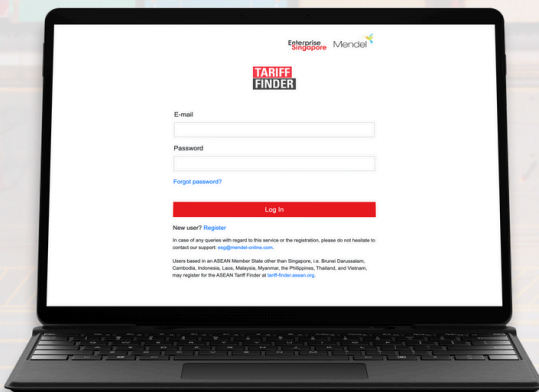

### HS Codes

Identify country-specific product HS code to determine the correct duties for Customs clearance.

# REPORTING NON-TARIFF BARRIERS

## What are non-tariff barriers?

Non-tariff barriers are government-imposed trade restrictions that limit imports or exports, but are not tariffs. These may include quotas, embargoes, sanctions, levies and other regulations that make imported goods less competitive than locally produced ones.

## Facing non-tariff barriers to trade? Notify us!

Companies facing non-tariff barriers can notify us, so that we can work with you on your next steps. You may submit the form at [go.gov.sg/notifytradebarrier](https://go.gov.sg/notifytradebarrier), or scan the QR code. We will provide a response within 20 working days.
