1 Effective March 2014, data regarding the European Union (EU) shall be reported as EU 28 instead of EU 27, to accommodate the accession of Croatia to the EU. All top products/economies which are stated to have contributed towards the changes in trade figures are ranked by absolute change in level and not change in percentage.

2 In tandem with the use of a new set of tariff codes for the classification of all goods traded within and outside ASEAN, data has been updated to ASEAN Harmonised Tariff Nomenclature (AHTN) 2017 version.
