

JOINT ADVISORY

MR No.: 048/20

Advisory for Phase 2 Re-opening of Food & Beverage Establishments

1. The Multi-Ministry Taskforce (MTF) announced on 19 May that Singapore would exit the [Circuit Breaker from 2 June and resume activities in three phases](#). On 15 June, the MTF announced that Phase 2 will commence on 19 June. Apart from a short list of exceptions, Phase 2 will see the resumption of most activities, including the reopening of food and beverage (F&B) establishments selling predominantly beverages and resumption of dine-in services.
2. To provide a safe environment for customers and workers, F&B establishments currently in operation, and those that will reopen in Phase 2, must implement [Safe Management Measures](#), as required by the Ministry of Manpower (MOM) and comply with the COVID-19 (Temporary Measures) (Control Order) Regulations.
3. In addition, F&B establishments are required to comply with the measures set out by Enterprise Singapore (ESG), Housing & Development Board (HDB), Singapore Food Agency (SFA), Singapore Tourism Board (STB) and Urban Redevelopment Authority (URA) in this document. The information in this document supersedes that in previous advisories or statements.

Resumption of food service operations

4. For Phase 2:
 - 4.1. Standalone F&B establishments predominantly selling beverages can resume operations.
 - 4.2. F&B establishments¹ can provide dine-in services, provided there is no provision of Public Entertainment².
 - 4.3. Sales and consumption of alcohol in all F&B establishments will be prohibited after 2230hrs daily.
5. The list of businesses that are allowed to operate from 19 June 2020 can be found on MTI's website (<https://covid.gobusiness.gov.sg/permittedlist/>). Businesses in this list do

¹ These would be F&B establishments that are issued food shop licences by SFA, with the exception of those with SFA food shop licences under the Pubs, Bars, Nightclubs and Discos categories.

² Public Entertainment activities are as per defined under the Public Entertainments Act.

not need to apply to MTI for exemption before resuming operations. They are required to submit the number of workers who are working on-site using the GoBusiness portal (<https://covid.gobusiness.gov.sg>) within two weeks of the date of resumption of on-site operations.

Safe Management Measures – Customer-facing Operations/Front-of-house

6. The following measures apply to all customer-facing operations of F&B establishments:
 - 6.1. **Table and seating management**
 - 6.1.1. Each table or group must be limited to 5 or fewer persons, with at least one-metre spacing between tables or groups³.
 - 6.1.2. Where tables/seats are fixed, tables/seats should be marked out to accommodate groups of no more than 5, while ensuring at least one-metre spacing between groups.
 - 6.1.3. Self-service buffet lines must be suspended⁴.
 - 6.2. **Queue management**
 - 6.2.1. F&B establishments are to clearly demarcate queue lines, and must ensure at least one-metre spacing between customers at areas such as entrances and cashier counters (e.g. through floor markers).
 - 6.3. **Crowd management**
 - 6.3.1. Live music, radio broadcasts and all forms of television/video screenings and other forms of public entertainment such as dancing, darts or karaoke are not allowed.
 - 6.3.2. All common play areas for children/toddlers/infants in F&B establishments must be closed.
 - 6.4. **Contact tracing**
 - 6.4.1. F&B establishments with seated diners must implement SafeEntry⁵ for customers and visitors. Those that only provide takeaway and/or delivery, where there is negligible or transient interaction with customers, are not required to do so.
 - 6.5. **Health checks**
 - 6.5.1. F&B establishments with seated diners must conduct temperature screening⁶ and checks on visible symptoms⁷ for customers at entrances, and advise those with fever and/or who appear unwell to visit a doctor

³ F&B establishments may use the bar counters to seat and serve meals to dine-in customers, but must ensure there is at least one-metre spacing between groups of diners.

⁴ This also applies to catering companies providing meals on other premises. They must not offer self-service buffet line, but may offer individually packed options instead.

⁵ More information on SafeEntry and a full list of places where SafeEntry must be deployed can be found at <https://www.safeentry.gov.sg/deployment>. Businesses should note that SafeEntry can be done via QR code/NRIC scanning, or manual entry of NRIC number & particulars through a dedicated device. Businesses should not decline entry to visitors unless the individual does not use SafeEntry QR or SafeEntry NRIC application and refuses to provide particulars to assist with manual entry.

⁶ Individuals with temperatures above 38 degrees Celsius are considered to be having a fever.

⁷ Notable visible symptoms to look out for include: (a) coughing; (b) sneezing; (c) breathlessness; and (d) a runny nose.

before turning them away⁸. Those that only provide takeaway and/or delivery are not required to do so.

6.6. **Cleanliness and hygiene**

6.6.1. All employees, customers, delivery personnel and other onsite personnel must put on their masks properly at all times⁹, except when eating and drinking.

6.6.2. F&B establishments must ensure that common spaces and items (e.g. utensils placed in common spaces), as well as high-touch surfaces (e.g. counters, menus) and interactive components (e.g. iPads, smart kiosks), are frequently cleaned/disinfected.

6.6.3. Any communal amenities (e.g. drinks dispensers and common condiments), as well as self-service food samples, must not be used.

7. F&B establishments should put up clear signages to remind customers of the above measures (in Para 6) where applicable, and train and deploy service personnel to provide clear communication to customers on safe distancing measures.

8. Refer to **Annex A** for other recommended guidelines.

Safe Management Measures – Workplace Premises¹⁰/Back of House/Kitchen

9. To ensure COVID-safe workplaces, F&B establishments should take care of their workers, workplaces and those who may become unwell at their workplaces, as outlined in MOM's Requirements for Safe Management Measures at the workplace. Refer to [MOM's website](#) for greater details and **Annex B** for a summary of these measures.

Enforcement of measures

10. Government agencies will be conducting inspections following Phase 2 reopening to check on the proper implementation of the Safe Management Measures. **Under the COVID-19 (Temporary Measures) Act passed in Parliament on 7 April 2020, first-time offenders will face a fine of up to S\$10,000, imprisonment of up to six months, or both. Subsequent offences may face a fine of up to S\$20,000, imprisonment of up to twelve months, or both.**

11. Businesses that do not implement or comply with the government's requirements on safe management measures may be ineligible for government grants, loans, tax rebates and other assistance.

Annex A – Other recommended guidelines for customer-facing operations

Annex B – Summary of Safe Management Measures required at the workplace premises

Annex C – Checklist of Safe Management Measures (customer-facing operations)

Issued by:

**Enterprise Singapore
Housing & Development Board**

⁸ F&B establishments with seated diners in malls need not conduct temperature screening and checks on visible symptoms for customers if the mall is already doing so. They should however do so, if they operate outside the mall hours.

⁹ Under the COVID-19 (Temporary Measures) (Control Order) Regulations 2020, every individual must wear a mask over the individual's nose and mouth at all times when the individual is not in his or her ordinary place of residence. Refer to MOH's latest guidance for use of masks and face shields at <https://www.moh.gov.sg/news-highlights/details/guidance-for-use-of-masks-and-face-shields>.

¹⁰ Refers to the F&B establishments' back-of-house operations involving employees, including at offices, warehouses and manufacturing facilities.

Other recommended guidelines for customer-facing operations

(Note: These are additional suggestions for F&B establishments to put in place, where practicable)

A. Reduce physical interaction

- Implement mobile ordering, pre-ordering and electronic payment solutions where possible, to minimise physical contact between customers and employees.

B. Queue Management

- Where practicable, manage queues using electronic reservation systems or take down diner details and call them when there are seats available.
- Where practicable, separate the queues and waiting areas for dine-in customers, takeaway customers and delivery personnel.
- Queueing in groups should be discouraged.

C. Crowd Management

- F&B establishments should take additional steps to manage higher-risk areas (e.g. bar counters or standing tables) where there is a higher likelihood of customers mixing between groups, to minimise socialising/mingling. This may be done by seating customers on stools or clearly demarcating the boundaries for each dining area to ensure separation of at least one metre between groups at all times.

D. Encourage takeaways and home delivery

- F&B establishments should avoid activities that would attract crowds in and outside of their premises (e.g. providing special discounts or offers for dine-in), for at least 2 weeks from Phase 2 reopening.
- Where practicable, collection and delivery from store should be spaced out and contactless¹¹.
- Take reasonable steps to ensure that delivery personnel observe at least one-metre spacing at all times and do not cluster together.
- Refer to the [Advisory for Delivery Businesses](#) for guidelines on delivery requirements.

E. Cleanliness and hygiene

- Where possible, place hand sanitisers in close proximity to high-touch surfaces for employees and customers to sanitise their hands. Employees should wash their hands or use hand sanitisers after handling cash and high touch surfaces and devices.
- Where possible, F&B establishments should ensure that tables and chairs are thoroughly cleaned with disinfecting agents¹² after each diner vacates the table.
- Serving utensils should be provided for customers who are sharing food.

¹¹ Where contactless collection is done, F&B establishments must label the orders clearly for easy pick-up and have arrangements in place such that customers do not handle containers or bags except for their own orders.

¹² List of suggested cleaning products and disinfecting agents can be found at <https://www.nea.gov.sg/our-services/public-cleanliness/environmental-cleaning-guidelines/guidelines/interim-list-of-household-products-and-active-ingredients-for-disinfection-of-covid-19>

Summary of Safe Management Measures required at the workplace premises

The Ministry of Manpower (MOM), the National Trades Union Congress (NTUC), and the Singapore National Employers Federation (SNEF) have issued details of the Safe Management Measures for employers to resume operations. These requirements are meant for general workplace settings.

Refer to [MOM's website](#) for full details.

A. Take care of your workers

- Actively enable employees to work from home. Working from home must remain the default for all businesses where feasible.
- For job roles or functions where employees cannot work from home, employers should stagger work and break hours, and implement shift or split team arrangements.
- There should be no cross-deployment or interaction between employees in different shifts, teams or worksites, even outside of work. If cross-deployment cannot be avoided (e.g. due to the nature of the job), additional safeguards must be taken to minimise the risk of cross infection.
- Wear masks and other necessary personal protective equipment at the workplace and observe good personal hygiene. Employees should keep their masks on at all times except when eating.

B. Take care of the workplace

- Use the SafeEntry visitor management system to record all personnel (including employees, vendors, and visitors) entering the workplace¹³.
- F&B establishments are encouraged to reduce the number of employees on-site, particularly for smaller premises, in order to allow for safe distancing. Where physical interaction cannot be avoided, precautions should be taken to ensure clear physical spacing of at least one metre between all personnel at all times, including at common areas and during break/meal times.
- Step up cleaning of workplace premises and provide cleaning and disinfecting agents like soap and sanitisers at common areas and to frontline personnel.

C. Take care of workers who become unwell at the workplace

- Ensure regular checks for temperature and respiratory symptoms for all onsite employees and visitors (e.g. vendors and contractors), twice daily, or where relevant. Employers must be able to demonstrate that these checks are in place during inspections.

D. Implement a system of Safe Management Measures

- Employers must appoint Safe Management Officer(s) (SMO) to assist in the implementation, coordination and monitoring of the Safe Management Measures at the workplace. Employers must provide appointed SMOs with adequate instruction, information and supervision as is necessary for them to fulfil their required duties.

¹³ For the full list of workplaces where SafeEntry must be deployed, please refer to <https://www.safeentry.gov.sg/deployment>.

F&B ESTABLISHMENTS**Checklist of Safe Management Measures Required for Resumption of Business Activities – Customer-facing Operations**

Requirement	Useful Evidence to Demonstrate Compliance
<p>To resume business activities, all companies must fulfil these requirements below.</p> <p><i>Note: The Government will take action against errant employers, including the cessation of operations and enforcement.</i></p>	<p>Companies can prepare the following to show that they have fulfilled the requirements:</p> <p><i>Documentation of processes/data, demonstration of practices and sharing of understanding through interviews</i></p>
<p>A. Implement table and seating arrangement</p>	
<p>1. Each table or group must be limited to 5 or fewer persons, with at least one-metre spacing between tables or groups.</p> <p>Where tables/seats are fixed, tables/seats should be marked out to accommodate groups of no more than 5, while ensuring at least one-metre spacing between groups.</p> <p>Suspend self-service buffet lines within the establishment¹⁴.</p>	<p><i>Show seating arrangement / configuration.</i></p>
<p>B. Implement queue management</p>	
<p>2. For queues, F&B establishments are to clearly demarcate queue lines, and must ensure at least one-metre spacing between customers at areas such as entrances and cashier counters (e.g. through floor markers).</p>	<p><i>Show demarcation of queue lines.</i></p>
<p>C. Implement crowd management</p>	
<p>3. Live music, radio broadcasts and all forms of television/video screenings and other forms of public entertainment such as dancing, darts or karaoke are not allowed.</p>	<p><i>Share practices and adherence to the restrictions</i></p>

¹⁴ This also applies to catering companies providing meals on other premises. They must not offer self-service buffet line, but may offer individually packed options instead.

All common play areas for children/toddlers/infants in F&B establishments must be closed.	
D. Contact tracing and Health checks	
<p>4. F&B establishments with seated diners must implement SafeEntry for customers and visitors.</p> <p>F&B establishments with seated diners must conduct temperature screening and checks on visible symptoms¹⁵ for customers at entrances¹⁶, and turn away those with fever and/or who appear unwell.</p>	<p><i>Show how SafeEntry and temperature declarations are communicated to customers.</i></p> <p><i>Show or describe how to deal with diners who are unwell.</i></p>
E. Cleanliness and Hygiene	
<p>5. All employees, customers, delivery personnel and other onsite personnel must put on their masks properly at all times, except when eating and drinking.</p> <p>F&B establishments must ensure that common spaces and items (e.g. utensils placed in common spaces), as well as high-touch surfaces (e.g. counters, menus) and interactive components (e.g. iPads, smart kiosks), are frequently cleaned/disinfected.</p> <p>Any communal amenities (e.g. drinks dispensers and common condiments), as well as self-service food samples, must not be used.</p>	<p><i>Show or describe cleaning frequency and steps to upkeep hygiene.</i></p>

¹⁵ Notable visible symptoms to look out for include: (a) coughing; (b) sneezing; (c) breathlessness; and (d) a runny nose.

¹⁶ Individuals with temperatures above 38 degrees Celsius are considered to be having a fever. F&B establishments with seated diners in malls need not conduct temperature screening and checks on visible symptoms for customers if the mall is already doing so. They should however do so, if they operate outside the mall hours.
