

FAESOL PTE LTD

Our Brands (Food Ingredient Supplies) -

Faesol supplies ingredients and blends to help users make healthier sweetened products. We carry the iLite[®] brand of ingredients to replace nutritive sweeteners in the “Healthier Sweet” space. We also distribute high intensity sweeteners, such as the naturally occurring stevia, and sucralose.

Our Services (Customized Powder Blends) –

Faesol’s dry powder blending capabilities coupled with our managed packed services is one of the key strengths to customized packaging solutions for our customers.

We are able to provide pilot; low / steady state volume production runs of Made-in-Singapore products for our clients. The quality standards we achieved are, GMP, HACCP, ISO22000/2005, Halal, and MasterChem Lab Quality certifications. Other services include the sourcing of ingredients, accredited laboratory testing and certification.

Our Solutions (Customized Food Solutions) –

To fulfil the brand promise, Faesol performs the role of customization in food solutions for our partners in the area of formulation work. Our speciality revolves around the creation of “Healthier Sweet Products”, which could be in the space of Fast Moving Consumer Goods (FMCGs), and sweetener blends for food services and food manufacturing application. The core competencies include shelf life testing, lab scale testing, and scale up trails at the customer’s facilities.
