

Sparky Products Pte Ltd

Premium Chocolate Manufacturer

Sparky Products Pte Ltd is the Singapore arm of a local family-owned premium chocolate manufacturer, Bennis Chocolate. The management team has over 40 years of experience in chocolate manufacturing, overseeing a wide range of products from compound to cocoa butter and bean-to-bar craft chocolates. Its capabilities include moulded bars, dragees, crème pralines and truffles which come in flavours from white and dark to matcha and black sesame, and fillings such as fruits, nuts and various flavoured creams.

In 2017, the team developed a bean-to-bar range under the Bennis Chocolate brand, featuring naturally processed chocolates made only from Asian cacao. One of the brand's key goals is to elevate the profile of Asian cacao globally whilst empowering farm communities by building a sustainable and profitable bean-to-bar production model. Existing products include Single Estate Chocolates and Cacao Tea from Vung Tau (Vietnam) and Sungai Ruan (Malaysia) with several more origins in the pipeline.

Most recently, the company received the Superior Taste Award 2018 with 2 Golden Stars from iTQi in Brussels for both the 72% Dark Chocolate and Cacao Tea from Sungai Ruan.
