

T.G. Kiat & Co (Pte) Ltd

A Rosy Tribute to Pure Flavour

Our Rose Essence a.k.a “The Real Rose Taste”

The Rose flower has always been a popular gift for happy occasions, even delivering meaningful messages between lovers and friends through the centuries. The varieties of Rose flowers with its distinctly rich and sweet fragrance, and aroma offer much more with its Rose essence, where the founders utilised. Along with a family-owned traditional recipe, we brewed it into a unique syrup to create flavourful beverages. It is also used as an ingredient for food preparation as well as for bakery and dessert making. Using only premium quality Rose flowers, it is now a truly authentic Singapore creation since 1935.

Our Beginning - Since 1935

T.G. Kiat was first incorporated in 1935 as a manufacturer of varieties of edibles from syrup to food colouring. The factory also through the years manufactured a variety of flavoured syrup such as Mango, Barley, Banana, Blueberry for various markets but by early 2000s the popularity and demands of our Rose Syrup in the international arena dictated the factory to streamline its operation to specialise to the sole production of the premium “ROSE BRAND ROSE SYRUP”. As a result, this course of action has propelled T.G. Kiat not only as a household name in the manufacturing world of cordial syrup but also labelled our syrup as a popular and premium brand.

Our Customers

Through many years of brand marketing and participation of trade shows worldwide, T.G Kiat customers base has grown exponentially. Rose Brand Rose Syrup is now exported to numerous countries in Europe, Middle East, N. Africa, Asia and Oceanic. “Our company have cultivated excellent working relationship and collaboration with distributors, wholesalers, professional traders, sales representations and marketing consultants and partners in bringing our product to the world’s many regions,” says Mr Gary Chua, Managing Director. He added, “while we have always been promoting our brand and direct export commercially to our many partners worldwide, we have also taken on customisation for OEM orders and private labels for multiple companies in such needs. This has also enabled us to ensure our delicious taste syrup reach more people around the world “.
